

■ GENERAL INFORMATION

The Doctor of Nursing Practice: Nurse Anesthesia Program is a 36-month, 114-credit hour, full-time program that prepares registered nurses for entry into nurse anesthesia practice. Upon completion of the program, graduates are eligible to take the national certification examination administered by the National Board for Certification and Recertification of Nurse Anesthetists. Satisfactory performance is necessary in order to practice as a certified registered nurse anesthetist.

The Arkansas State University nurse anesthesia program graduated its first class in 2005. Since then, the program has graduated over 600 students. The first DNP class will graduate in May of 2024.

All documentation required by the School of Nursing must be kept current at all times during the course of the program. Students admitted will be required to supply additional documentation, including current ACLS certification, PALS certification, CPR certification, Hepatitis B immunizations, TB skin test, valid unencumbered RN license in the state of practice and proof of professional liability insurance.
