Arkansas State University-Beebe Mission Statement:
Transforming lives through quality learning experiences.

HISTORY

As the oldest two-year college in the state, ASU-Beebe has paved the way in making a quality education affordable and attainable for Central Arkansas students. In 1927, ASU-Beebe was founded as Junior Agricultural School of Central Arkansas after Beebe citizens donated 300 acres of land to start the school. In 1931, the name was changed to Junior Agricultural College of Central Arkansas, and a college curriculum was established. The college has been affiliated with the Arkansas State University System since 1955.

ASU-Beebe has established a strong reputation of providing quality, affordable instruction and service programs to its surrounding communities. Located 31 miles north of Little Rock, it is the tenth largest college in the state and has an enrollment greater than four of Arkansas' public four-year colleges. It is the only Arkansas two-year college with residence halls, and has recently built new suite-style residence halls to better serve student needs.

ASU-Beebe has a tremendous positive impact on the economy of Central Arkansas, contributing over \$316 million annually to the regional economy through its operations, capital spending and workforce comprised of former students. ASU-Beebe has maintained its commitment to the development of top-notch learning facilities throughout the years by expanding and renovating facilities on each of the campuses.

Diverse Experiences

HISTORY

In 1991, the Arkansas General Assembly created technical colleges from the Baxter County Vocational-Technical Center and the North Arkansas Community/Technical College Center in Mountain Home. Mountain Home Technical College was established on July 1, 1991. In 1992, the Mountain Home Technical College agreed to seek affiliation with Arkansas State University to form a sister campus. On July 1, 1993, Mountain Home Technical College became Arkansas State University Mountain Home Technical College.

Arkansas State University-Mountain Home (ASUMH) was established on July 1, 1995 due to the commitment of the residents of Baxter County and the cooperation of the Department of Higher Education and Arkansas State University in Jonesboro.

ASUMH has an open door admissions policy. This policy is designed to enhance access to educational opportunities. Standards of quality are maintained and students are required to remove deficiencies before entering certain programs or courses.

Nestled in the beautiful Ozark Mountains, 156 miles north of Little Rock, the environment at ASUMH encourages free expression, leadership and innovation. Small class size means personal attention and support from instructors. Additionally, the construction of a new campus accommodating 1,200 students offers an even more appealing setting for students to pursue higher education.

PROGRAMS OF STUDY

An Associate of Arts is offered for those students needing maximum flexibility in the selection of a course of study to meet individual employment and educational needs. It can be designed to meet the General Education requirements for those individuals planning to transfer to a four-year institution in order to complete a bachelor's degree. Associates of Applied Science are offered in Crime Scene Investigation, Criminal Justice, Funeral Science, Information Systems Technology, Law Enforcement Administration, Management, Nursing, Paramedic Technology, Respiratory Care and Welding Technology. Also offered is an Associate of Arts in Teaching, Associate of General Studies and an Associate of Science in Business, Criminal Justice and Early Childhood Education. Technical Certificates are offered in Crime Scene Investigation, Electronics Technology, Funeral Directing, General Business, Health Professions, Information Systems Technology, Law Enforcement Administration, Paramedic Technology, Practical Nursing and Welding Technology.

A-State and ASUMH have formed a partnership to offer various bachelor's and graduate degree programs through the Center for Advanced Studies on the Mountain Home campus. The bachelor's degrees are offered by building on the existing Associate of Arts degree offered at ASUMH. The Center currently offers bachelor's degrees in Agricultural Business, Business Administration, Clinical Lab Science, Criminology, Early Childhood Education, Management, Middle-Level Education, Nursing and Technology. Master's degrees are offered in Business Administration, Curriculum and Instruction, and Educational Leadership.

ACCREDITATION

ASUMH is accredited by the Higher Learning Commission of the North Central Association (Thirty North LaSalle, Suite 2400, Chicago, IL 60602), the American Board of Funeral Service Education, and the Arkansas State Board of Nursing.

In the Diverse Community We Serve*

HISTORY

Arkansas State University-Newport (ASUN) has been in continuous operation since August 1975. Prior to being named ASU-Newport, the campus was known as White River Vocational Technical School. In 1991, the Arkansas Legislature passed Act 1244 which merged White River Vocational Technical School with ASU-Beebe. In 1992, it became ASU-Beebe/Newport and in 1997 became ASU-Newport. The 83rd General Assembly of the Arkansas Legislature passed Act 297 into law on February 19, 2001, creating a separate budget appropriation for ASUN effective July 1, 2001. The Higher Learning Commission of the North Central Accreditation Association of Colleges and Schools (NCA) granted the college initial accreditation for stand-alone status for five years in August 2002. In April 2007, the college received ten year accreditation status from the NCA. In March 2001, the state legislature approved the merger of Delta Technical Institute with Arkansas State University to produce the ASU Technical Center (ASUTC). In 2008, ASUTC was aligned with ASUN.

PROGRAMS OF STUDY

Programs and services are designed to assist students (both traditional and nontraditional) in determining and achieving their educational, personal and career goals.

These programs and services include associate degrees, certificates, continuing education, workforce development, adult education, ESL and opportunities through the Career Pathways program.

The college offers transfer degree programs, including an online degree (AA in Liberal Arts), an AA degree in Teaching (including Middle School and P-4 grade options) and Computer Information Systems, applied science degrees (including RN and General Technology with an emphasis in such areas as High Voltage Lineman Technology), technical certificates in such areas as Practical Nursing, Business Technology, High Voltage Lineman Technology, and Diesel Mechanics and certificates of proficiency in such diverse areas as CNA and Truck Driver Training (the largest commercial driver training program in the state).

Arkansas State University Mid-South

Dr. Debra West, Chancellor since 2015

Arkansas State University Mid-South Mission Statement:

ASU Mid-South is a public two-year institution of higher education with an open-door admission policy, serving Crittenden County, Arkansas, and the surrounding areas with a comprehensive educational program. The College is committed to economic development in the Arkansas Delta through the provision of high quality, affordable, and convenient learning opportunities and services consistent with identified student, community, and regional needs.

To meet these needs, the College provides quality academic and support programs, personnel, technology, administrative services, and facilities necessary to respond in a timely and effective manner.

HISTORY

The evolution of ASU Mid-South began in 1991 following the Arkansas Legislature's approval of Act 1244. The legislation provided for the conversion of fourteen of Arkansas' vocational-technical schools into technical colleges, branches of four-year institutions, or community colleges with the additional support of a local millage. Ten "vo-techs," including Mid-South, accepted the conversion challenge.

The decision could easily be described as a "leap of faith," considering the early history of the institution. In operation since 1979, the school experienced little growth or support during its first 12 years of existence. At the time of its conversion to a technical college, Mid-South served fewer than 100 students annually and offered primarily adult education classes, truck driver training, practical nursing, and data processing/clerical support courses.

Section 22 of Act 1244 allowed newly-formed technical colleges to convert to community colleges with the passage of a local millage and approval of the State Board of Higher Education. Mid-South became the only vocational technical school to take this additional step. The Board of Trustees considered conversion to a community college essential to address the weak economy, unemployment, and alarmingly low college-attendance rate in Crittenden County. The State Board of Higher Education approved the application for conversion on October 23, 1992. A steering committee proposed a county-wide levy of four mills, a recommendation ratified by the Mid-South Technical College Board of Trustees. The voters of Crit-

tenden County put their stamp of approval on the effort with overwhelming support on February 16, 1993. Later that year, the State Board of Higher Education granted the College authority to offer its first degree.

PROGRAMS OF STUDY

ASU Mid-South offers degree and certificate programs to meet student and community needs. Program courses address general education knowledge as well as behaviors needed for good citizenship and successful careers.

Programs offered are Aviation Technology, Business, Diesel Technology, Digital Media, Emergency Tech, General Education, Hospitality, Information Technology, Machine Technology, Mechatronics, Medical Assistant, Nursing Assistant, Process Control, Respiratory Therapy, Teaching, and Welding Technology.

Institutional Classifications

Southern Regional Education Board (SREB) & Carnegie Foundation

SREB CLASSIFICATIONS

The SREB system for categorizing postsecondary education institutions is based upon a number of factors relevant to determining resource requirements. Differences in institutional size (*number of degrees*), role (*types of degrees*), breadth of program offerings (*number of program areas in which degrees are granted*), and comprehensiveness (*distribution of degrees across program areas*) are the factors upon which institutions are classified.

Institutions are assigned to categories for a report year using the previous academic year's data on program completions. To keep the statistical comparison groups relatively stable over time and to assure that institutions change categories only when their measures on a criterion are relatively stable, institutions change categories when they meet the criterion for another category for the third consecutive year.

♦**Four-Year 1:** Institutions awarding at least 100 doctoral degrees distributed among at least 10 CIP categories (2-digit classification) with no more than 50 percent in any one category. (*University of Arkansas-Fayetteville*)

♦**Four-Year 2:** Institutions awarding at least 30 doctoral degrees distributed among at least 5 CIP categories.

♦**Four-Year 3:** Institutions awarding at least 100 master's, education specialist, post-master's, or doctoral degrees with master's, education specialist, and post-master's degrees distributed among at least 10 CIP categories. (*Arkansas State University, Arkansas Tech University, University of Arkansas-Little Rock, and University of Central Arkansas*)

♦**Two-Year 2:** Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of between 2,000 and 4,999. (*Arkansas State University-Beebe*)

♦**Two-Year 3:** Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of less than 2,000. (*Arkansas State University-Mountain Home, Arkansas State University-Newport and Arkansas State University Mid-South*)

CARNEGIE CLASSIFICATION

The Carnegie Commission developed a classification of colleges and universities to support its program of research and policy analysis. With the 2005 revision, the single classification was replaced by a set of multiple, parallel classifications. They are organized around three fundamental questions: what is taught (*Undergraduate & Graduate Instructional Programs*), who are the students (*Enrollment Profile & Undergraduate Profile*), and what is the setting (*Size & Setting*).

A-State's Classifications by Category*

Basic: (Master's L - Master's Colleges and Universities with larger programs) Generally includes institutions that award at least 50 master's degrees and fewer than 20 doctoral degrees per year.

Size & Setting: (M4/NR - Medium four-year) Fall FTE enrollment of 3,000 - 9,999 degree seeking students at these bachelor's degree granting institutions. Fewer than 25% of degree-seeking undergraduates live on campus.

Enrollment Profile: (HU - High undergraduate) Fall enrollment data show both undergraduate and graduate/professional students, with the graduate enrollment accounting for less than 10-24% of FTE enrollment.

Undergraduate Profile: (FT4/I - Full-time four-year, inclusive) Fall enrollment data show at least 80% of undergraduates enrolled full-time at these bachelor's degree granting institutions. At these institutions test scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement.

Undergraduate Instructional Program: (Prof+A&S/SGC - Professions plus arts & sciences, some graduate coexistence) 60-79% of bachelor's degree majors were in professional fields, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half).

Graduate Instructional Program: (Doc/Prof - Doctoral, professional dominant) These institutions award doctoral degrees in a range of fields, with the plurality in the professions other than engineering (such as education, health professions, public policy, or social work).

*NOTE: The most recent Carnegie Classifications are based on time-specific snapshots of institutional attributes and behavior based on data from 2013/2014.
