Director's Welcome & Forward

Welcome to the **2012-2013 Arkansas State University Factbook**! The ASU System Factbook is a publication produced by the Office of Institutional Research and Planning that outlines enrollment, faculty and staff data, financial reports and other comprehensive information for the Arkansas State University campuses at Jonesboro, Beebe, Mountain Home and Newport. The ASU Factbook is produced annually and is intended to provide answers to questions that are frequently asked by the administration, faculty, staff, students, alumni and other university constituents.

The definitions and guidelines used to compile this information are provided by the Integrated Postsecondary Education Data System (IPEDS), the Arkansas Department of Higher Education (ADHE), the Office for Civil Rights (OCR) and the National Collegiate Athletic Association (NCAA). It is important to note that the information in this factbook may differ from data reported by the Office of Institutional Research and Planning to federal, state and regional agencies due to differences in reporting guidelines, reporting definitions, and the timing of when the information was prepared.

In order to make information more readily available to all constituents, the ASU Factbook is available in PDF format on the Institutional Research and Planning web site. You can reach our web site through the Arkansas State University Home Page, or you can go to our site directly at

<http://www.astate.edu/irp>

Arkansas State University-Beebe Mission Statement:
Transforming lives through quality learning experiences.

HISTORY

As the oldest two-year college in the state, ASU-Beebe has paved the way in making a quality education affordable and attainable for Central Arkansas students. In 1927, ASU-Beebe was founded as Junior Agricultural School of Central Arkansas after Beebe citizens donated 300 acres of land to start the school. In 1931, the name was changed to Junior Agricultural College of Central Arkansas, and a college curriculum was established. The college has been affiliated with the Arkansas State University System since 1955.

ASU-Beebe has established a strong reputation of providing quality, affordable instruction and service programs to its surrounding communities. Located 31 miles north of Little Rock, it is the tenth largest college in the state and has an enrollment greater than five of Arkansas' public four-year colleges. It is the only Arkansas two-year college with residence halls, and has recently built new suite-style residence halls to better serve student needs.

ASU-Beebe has a tremendous positive impact on the economy of Central Arkansas, contributing over \$316 million annually to the regional economy through its operations, capital spending and workforce comprised of former students. ASU-Beebe has maintained its commitment to the development of top-notch learning facilities throughout the years by expanding and renovating facilities on each of the campuses.

HISTORY

In 1991, the Arkansas General Assembly created technical colleges from the Baxter County Vocational-Technical Center and the North Arkansas Community/Technical College Center in Mountain Home. Mountain Home Technical College was established on July 1, 1991. In 1992, the Mountain Home Technical College agreed to seek affiliation with Arkansas State University-Jonesboro to form a sister campus. On July 1, 1993, Mountain Home Technical College became Arkansas State University Mountain Home Technical College.

Arkansas State University-Mountain Home (ASUMH) was established on July 1, 1995 due to the commitment of the residents of Baxter County and the cooperation of the Department of Higher Education and Arkansas State University in Jonesboro.

ASUMH has an open door admissions policy. This policy is designed to enhance access to educational opportunities. Standards of quality are maintained and students are required to remove deficiencies before entering certain programs or courses.

Nestled in the beautiful Ozark Mountains, 156 miles north of Little Rock, the environment at ASUMH encourages free expression, leadership and innovation. Small class size means personal attention and support from instructors. Additionally, the construction of a new campus accommodating 1,200 students offers an even more appealing setting for students to pursue higher education.

Institutional Classifications

Southern Regional Education Board (SREB) & Carnegie Foundation

SREB CLASSIFICATIONS

The SREB system for categorizing postsecondary education institutions is based upon a number of factors relevant to determining resource requirements. Differences in institutional size (*number of degrees*), role (*types of degrees*), breadth of program offerings (*number of program areas in which degrees are granted*), and comprehensiveness (*distribution of degrees across program areas*) are the factors upon which institutions are classified.

Institutions are assigned to categories for a report year using the previous academic year's data on program completions. To keep the statistical comparison groups relatively stable over time and to assure that institutions change categories only when their measures on a criterion are relatively stable, institutions change categories when they meet the criterion for another category for the third consecutive year.

♦**Four-Year 1:** Institutions awarding at least 100 doctoral degrees distributed among at least 10 CIP categories (2-digit classification) with no more than 50 percent in any one category. (*University of Arkansas-Fayetteville*)

♦**Four-Year 2:** Institutions awarding at least 30 doctoral degrees distributed among at least 5 CIP categories.

♦**Four-Year 3:** Institutions awarding at least 100 master's, education specialist, post-master's, or doctoral degrees with master's, education specialist, and post-master's degrees distributed among at least 10 CIP categories. (*Arkansas State University, University of Arkansas-Little Rock, University of Central Arkansas*)

♦**Two-Year 2:** Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of between 2,000 and 4,999. (*Arkansas State University-Beebe*)

♦**Two-Year 3:** Institutions awarding associate degrees and offering college transfer courses with FTE enrollment of less than 2,000. (*Arkansas State University-Mountain Home, Arkansas State University-Newport*)

CARNEGIE CLASSIFICATION

The Carnegie Commission developed a classification of colleges and universities to support its program of research and policy analysis. With the 2005 revision, the single classification was replaced by a set of multiple, parallel classifications. They are organized around three fundamental questions: what is taught (*Undergraduate & Graduate Instructional Programs*), who are the students (*Enrollment Profile & Undergraduate Profile*), and what is the setting (*Size & Setting*).

ASU's Classifications by Category*

Basic: (Master's L - Master's Colleges and Universities with larger programs) Generally includes institutions that award at least 50 master's degrees and fewer than 20 doctoral degrees per year.

Size & Setting: (M4/NR - Medium four-year, primarily nonresidential) Fall FTE enrollment of 3,000 - 9,999 degree seeking students at these bachelor's degree granting institutions. Fewer than 25% of degree-seeking undergraduates live on campus.

Enrollment Profile: (HU - High undergraduate) Fall enrollment data show both undergraduate and graduate/professional students, with the graduate enrollment accounting for less than 10-24% of FTE enrollment.

Undergraduate Profile: (FT4/I - Full-time four-year, inclusive) Fall enrollment data show at least 80% of undergraduates enrolled full-time at these bachelor's degree granting institutions. At these institutions test scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement.

Undergraduate Instructional Program: (Prof+A&S/SGC - Professions plus arts & sciences, some graduate coexistence) 60-79% of bachelor's degree majors were in professional fields, and graduate degrees were observed in some of the fields corresponding to undergraduate majors (but less than half).

Graduate Instructional Program: (Doc/Prof - Doctoral, professional dominant) These institutions award doctoral degrees in a range of fields, with the plurality in the professions other than engineering (such as education, health professions, public policy, or social work).

*NOTE: The most recent Carnegie Classifications are based on time-specific snapshots of institutional attributes and behavior based on data from 2010/2011.

The Dean B. Ellis Library, centrally located in an eight-story building, functions as an educational center for the community. The Library of Congress classification system is used for the arrangement of print books and media, and an online catalog provides access to the library's physical collections. The library meets the informational needs of the university by offering a variety of services. A staff of 14 professional librarians and 20 support personnel acquire, organize and maintain the collection, and provide a variety of library services. Reference librarians assist users in locating information and in using the library. The library also offers an active library skills instruction program which reaches numerous university classes. The library provides access to hundreds of online database and search services, including more than 200,000 E-Books, via links on the library's web site. Materials that are not contained in the library's collection are accessible by interlibrary loan through the OCLC network.

Private donor support enables Arkansas State University to attract and retain the highest quality students. Citizens of Northeast Arkansas communities have historically provided generous donor support. Additionally, private support endows numerous ASU scholarships each year. Scholarships help to keep the brightest students in Arkansas, and scholarships are more necessary now than ever. An endowed scholarship can be established for \$10,000, or an annual gift may be provided to fund one or more scholarships. Scholarships are currently available in virtually every discipline.

Jonesboro Campus - Fiscal Year 2012

The ground breaking for four Greek sorority houses began in April 2012. The houses are estimated to be completed in July 2013 with sorority students expected to occupy the homes in the fall of 2013. This will be the first time in ASU history that sorority chapters have had individual housing.

The new houses will be southern mansion style with each containing 8,051 square feet. The new sorority housing will enhance the living and learning environment of the university and will help attract additional highly qualified students. Each house will house twenty sorority students.
