Discussing LP Rubric

- ~~Add in N/A category~~

- Think about that this is used EPP-wide

- Included in the 1 rating is the “none” for no artifacts

- Rubric will be in SL&L

- Everyone will have their own version of the edTPA lesson plan

- Want a 5-point anchor so people can choose a real middle;

- Change last column (Developing 1) to Lesson Plan Insufficient

- This will be done in ONE course as a pre- and post—done in junior year before residency (Maybe put this in the rubric?) which will be program dependent

- Rubric was inspired by Jacksonville State and Linsey Wilson College

- Secondary program may have fall methods classes when they would implement this so they would not be able to start this in the spring

- Kathryn will need to know which course is each program implementing this rubric

- Find out how to get access to SL&L—students will need to purchase—can we do instant access (yes, this is possible).
