APAC Report Get from video

Initial Programs

① what would we need to do to make our students more effective

② issues with subbing - teachers asking for ROS I to sub only in EMT Classroom because limited time in classroom.

Schools overusing - putting residents in for long term ~~sub~~ sub positions - what works for school But also for our residents

③ Fayetteville seems to allow placement (EMT Classroom) to change R1 to R2
Is this something schools might like?

④ Recommendations for including AR Reports H&I in programs where there is not identified H&I -
and thoughts about how to teach in programs (like MAT) where have some ^{Licensure} programs w/ approved programs & some licensure programs w/ none

① What skills and knowledge do our graduates need to be effective in your schools?

② How can we partner w/ your school?

③ Tell us what we do well to prepare graduates for your school?

④ What ~~Now~~ Can we improve in our preparation programs?

⑤ What is a graduate prepared to address the needs of all learners?

⑥ How are our graduates prepared to handle conflict among adults as well as students?

⑦ What are graduates prepared to handle or address ethical challenges?

NEW PRAXIS CONTENT EXAM FOR ELEMENTARY EDUCATION

ETS is replacing its Praxis Elementary Education: Multiple Subjects (5001) with the Praxis Elementary Education: Foundations (8002–8005), which contains the following set of tests:

- Reading and Language Arts (8002)
- Mathematics (8003)
- Social Studies (8004)
- Science (8005)

This content assessment will be used for Elementary Education (K-6) licensure. **DESE will be an early adopter of the 8002-8005 beginning March 9, 2026. The 5001 overlap period will end August 31, 2027.**

ETS will provide an overview of the 8002-8005 to administrators, as well as details for the new **Steps** modular testing functionality. Steps is a modular approach to allow test takers to take or retake their Praxis test in smaller “steps.” The 8002-8005 will be the first Praxis test to integrate Steps. More information to come in late January.

DESE is moving to an asynchronous model for test reviews to provide stakeholders with flexibility in reviewing the test content. ETS has provided recorded presentations and documentation on the 8002-8005 regeneration for you to peruse. Please email Mary Elizabeth mspence@astate.edu for access.
