No..

We will have to remove it from the integrations and Im sure this may need a ticket. Will you submit one to coursedog to find out how to remove it from the dropdown

Subject: Fw: WEBJ

Hello Himaja,

Is this where I remove the WEBJ option or is this completed on the integrations page?

Subject: Re: WEBJ

Correct, WEBJ is no longer needed as we no longer have any programs that are those ending in 3 like we used to have with College Student Personnel Services.

Thanks

Chris

All,

It looks like AOS has retired the use of the WEBJ instructional method? The sections I'm seeing for Fall (and Spring 2027) are from on-campus courses, and I think those are just built incorrectly (they were never supposed to use those, except maybe with DPEM back in the day). If you're not using it for anything, I'd like to go ahead and retire it, and we can update all these traditional sections. We can also likely get it removed from CourseDog as an option I believe.
