Master Classroom

The Master Classroom has dual capabilities, with half the space dedicated to computers and the other half dedicated to a multi-function classroom. This lets the room accommodate various activities. Some examples include: Presentations, Book clubs, faculty meetings, workshops, and professional development sessions. The cameras and microphones in the room also allow this room to function in all three presentation modes: Face-to-Face, Virtual, and Hybrid.

Master Classroom Specifications

While we only have enough computers to accommodate 19 users, the room's total normal occupancy is 47.
