

How do I add a text header as a module item?

You can add text to your module when you add a new item.

Open Modules

Open Modules

In Course Navigation, click the **Modules** link.

Add Content

[Add Content](#)

Click the **Add Item** button.

Select Item Type

Select Item Type

In the drop-down menu, select the Text Header option.

Add Text

Add Text

Type the text you wish to add in the header field [1]. Open the Indentation drop-down menu and select the level of indentation for the text header [2].

Add Item

Add Item

Click the **Add Item** button.

View Module

[View Module](#)

View the new text header in your module.
