

How do I add all items or a random set from an item bank to a quiz in New Quizzes?

You can add multiple items to a quiz from an item bank in New Quizzes. These questions display in random order. Depending on the number of items you include from your item bank, students may view different questions when taking their quiz.

This lesson shows how to add an item from an item bank using the Item Banks button from the Build page. You can also access your item banks when [adding content to a quiz](#).

You can also add [individual items from an item bank](#).

Note: When you add stimulus content to an item bank, questions attached to the stimulus content are not automatically added and must be added to the item bank manually. Likewise, when you add stimulus content to a quiz from an item bank, attached questions are not automatically added.

Open Quizzes

Open Quizzes

In Course Navigation, click the **Quizzes** link.

Note: You can also access quizzes from the Assignments page.

Open Build Page

[Open Build Page](#)

To add all items or a random set from an item bank, find the quiz you want to open [1].

To open New Quizzes from an existing quiz, click the **Options** icon [2] and then click the **Build** link [3].

Open Item Banks

[Open Item Banks](#)

Click the **Item Banks** button.

Open Item Bank

Open Item Bank

Click the name of an item bank.

Add Multiple Items

Add Multiple Questions

Click the **Add All/Random** button.

Edit Item Bank Question Settings

[Edit Item Bank Question Settings](#)

By default, the quiz includes all items from the item bank [1] and will award one point per question [2]. To edit these settings, click the **Edit** icon [3].

[View Item Bank Settings](#)

To change the item bank for the items, click the **Select the destination bank** menu [1].

To use all items from the item bank, select the **Use all questions** option [2]. To randomly select a specific number of items, click the **Randomly select questions** option [3] and enter the number of items to use in the **Number of questions** field [4].

To adjust the amount of points awarded per question, enter the number in the **Points per question** field [5]. To save your settings, click the **Done** button [6].

View Item Bank

[View Item Bank](#)

View the items. You can view the question numbers that will be represented by items [1], the item bank used [2], and the amount of points per question to be awarded [3].

To [move the questions](#), click the **Move** icon [4]. To delete the item bank questions, click the **Delete** icon [5].
