

# How do I create a Text (no question) quiz question?

You can create a question in a quiz that does not include answers or point values. A text (no question) quiz question can be used as a preface to a quiz or a group of questions within a quiz. You may wish to use this type of question to include a passage of text, image, or video that will be referenced in subsequent questions.

**Note:** All questions placed in question groups are shuffled when they appear in students' quizzes. Placing a text (no question) quiz question in a question group will likely disrupt your intended question order.

## Add Question

Add Question

With the **Questions** tab [1] selected inside a new quiz, click the **New Question** button [2].

## Set Name and Type

Set Name and Type

To add a custom name to your quiz question, enter the name in the question text field [1]. Custom names for text (no question) quiz questions only appear to teachers when editing the quiz. Students do not see custom names when taking the quiz.

Click the drop-down menu and select the **Text (no question)** question type [2].

## Edit Question Details

[Edit Question Details](#)

Use the Rich Content Editor to add text, images, media, or other items to your text (no question) quiz question.

## Update Question

Update Question

Click the **Update Question** button.

# Student View for Text (No Question) Quiz Question

Student View for Text (No Question) Quiz Question

This is what students see when they encounter a text (no question) question in a quiz.
