How do I edit module items?

You can edit module items' names and indentation after they have been created.

Open Modules

Open Modules
In Course Navigation, click the **Modules** link.

Edit Module Item

Edit Module Item
Click the **Options** icon [1] and select the **Edit** link [2].

Edit Item Details

Edit Item Details
You can edit the item title by typing in the title field [1]. You can also edit the indentation level by selecting the indent drop-down menu [2].

Note: Changes made to one item will be made to all iterations of the item.

Update Item

Update Item
Click the **Update** button.

View Module Item

View Module Item
View the changes to the Module item.
