

How do I hide totals in my students' grade summaries?

In Course Settings, instructors have the option to hide total grades from students. By default, students can see the totals for assignment groups when they [view their course grades](#). However, for courses that use weighted assignment groups, the assignment group totals are always hidden from students.

If your course is using [Multiple Grading Periods](#), this setting restricts students from viewing grades in any grading period.

Open Settings

Open Settings

In Course Navigation, click the **Settings** link.

Open Course Details

Open Course Details

Click the **Course Details** tab.

Hide Totals in Student Grades Summary

Hide Totals in Student Grades Summary

Select the **Hide totals in student grades summary** option.

Update Course Details

Update Course Details

Click the **Update Course Details** button.

Students View Informational Message

[Students View Informational Message](#)

When students [view their course grades](#), an informational message indicates that the calculation of totals has been disabled. Assignment group names are displayed, but totals are hidden.
