

How do I import questions from a QTI package into an item bank in New Quizzes?

You can import questions from a QTI package into an item bank. This lesson describes how to add a QTI package to an item bank by creating a new item bank. You can also add a QTI package to an empty item bank that has already been created.

Notes:

- New Quizzes only supports imports from QTI 1.2 and 2.x versions. However, some QTI 1.2 and 2.x 3rd party packages include software-specific item types which may not be supported.
- You can only import questions if you access item banks from the Manage Item Banks page in the Options menu. If you click the Item Banks button, you will not be able to import questions.
- When creating an item bank from a QTI import, the new item bank is given the same title as the imported QTI file.

Open Item Banks

Open Item Banks

In Course Navigation, click the **Item Banks** link.

Notes:

- You can also access quizzes from the Assignments page.
- You can also access Item Banks from the New Quizzes Build page.

Add Item Bank

[Add Item Bank](#)

Click the **Add Bank** button.

Name Item Bank

Name Item Bank

In the **Bank Name** field [1], enter the name of the item bank. You can share the new item bank to the current course by clicking the **Share** checkbox [2]. To save your bank, click the **Create Bank** button [3].

Select Item Bank

Select Item Bank

Click the name of your new item bank.

Import Content

Import Content

Click the **Options** icon [1] then select the **Import Content** option [2].

Note: If there are questions in your item bank, you will not be able to select the Import Content option.

Import QTI File

Import QTI File

To import a QTI file, drag and drop the file [1] or select a file by clicking the **Browse** button [2].

To start the import, click the **Import** button [3].

View Import Status

View Import Status

A status bar will display the status of the import.

Manage Item Bank Questions

Manage Item Bank Questions

View the imported questions in your item bank. To [add a new question to the item bank](#), click the **Add New** button [1].

To [edit an item bank question](#), click the **Edit** icon [2]. To [move or copy a question to another item bank](#), click the **Copy** icon [3]. To delete a question, click the **Delete** icon [4].

To return to your item bank, click the **Return** button [5].

View Question Details

[View Question Details](#)

To view more details for a question, click the **Open** icon [1]. The details will include answer choices [2] and the date and time the question was last updated [3].

To close question details, click the **Close** icon [4].
