

How do I use Chrome's speech recognition feature to leave a comment in SpeedGrader?

If you use the Google Chrome web browser to access Canvas, you can use Chrome's speech recognition feature to leave text comments on student assignments in the SpeedGrader. Chrome's speech recognition feature turns your spoken comments into text comments.

Chrome speech recognition will default to the preferred language set in your Chrome settings. To change your setting to a different language, [view your language settings in Chrome](#).

Open SpeedGrader

Open SpeedGrader

[Open SpeedGrader](#) from any assignment, graded discussion, or quiz. You can also open SpeedGrader [from the Gradebook](#).

Open Student Submission

Open Student Submission

Use the [student list](#) to locate a student submission.

Open Speech Recognition

Open Speech Recognition

In the Assignment Comments area, click the **Speech Recognition** comment icon.

Note: If the assignment is supported by Assignment Enhancements, the Assignment Comments section may display as Comments for this Attempt.

Record Comment

Record Comment

Click the **Record** button.

View Speech-to-Text Dialog Box

The dialog box indicates that the feature is recording. Share your comments aloud; your speech will be transcribed into text in real time [1].

If you want to re-record the converted text, click the **Cancel** button [2]. Otherwise, apply the recorded text in SpeedGrader by clicking the **Stop** button [3].

Submit Comment

Submit Comment

If necessary, modify your text in the comment box. Then click the **Submit** button.
