How do I view practice quiz results in a course?

You can view results after one or more students have taken the practice quiz.

Notes:

- Students do not receive a grade for practice quizzes, even though the quiz results display the number of points earned in the quiz.
- Practice quizzes do not appear in the Syllabus, the Gradebook, or SpeedGrader. To make practice quiz results easier to find for students, you may want to include practice quizzes in a course module. You can also add a due date to the practice quiz so it displays in the student's To Do list and List View dashboard.
- Students can view practice quiz results from the quiz submission details page. Practice quiz results do not display on the student grades page.
- To view responses to essay questions, view individual submissions or download the Student Analysis report.

In the Practice Quiz, you can also view Quiz Statistics by clicking the **Quiz Statistics** link.

View Quiz Statistics

View Quiz Statistics
View statistics for each quiz question. You can view an entire summary that shows all score percentages. The summary also shows the quiz average score, high score, low score, standard deviation (how far the values are spread across the entire score range), and average time of completion. Click here to learn more about quiz statistics.

View Analysis Reports

View Analysis Reports

You can also download quiz results by clicking the **Student Analysis** or **Item Analysis** links. Click here to learn more about quiz analysis.

Note: By default, the submitted time in the Student Analysis report is shown in UTC, not your set time zone.
