

How do I view survey results in a course?

You can see graded or ungraded survey results after one or more users have taken the survey.

Notes:

- Graded surveys display in the Gradebook and SpeedGrader, while ungraded surveys do not.
- The Item Analysis report is not available for surveys.
- You can filter survey statistics using the first 10 sections of your course.

Open Quizzes

Open Survey

Click the Survey name.

Show Student Survey Results

Show Student Survey Results

Click the **Options** icon [1] and select the **Show Student Survey Results** link [2] to view individual submissions.

Select Student Survey Result

Select Student Survey Result

Under the **Students who have taken the quiz** heading, click the name of a student [1]. You can also see a list of students who haven't taken the practice quiz. The **warning** icon [2] indicates a submission that needs review.

Open Survey Statistics

Open Survey Statistics

In the sidebar, click the **Survey Statistics** link to view all the responses to the Survey.

Note: To view responses to essay questions, view individual submissions or download the Student Analysis CSV.

View and Filter Statistics

View and Filter Statistics

View the Survey statistics [1]. You can view an entire summary that shows all score percentages. The summary also shows the quiz average score, high score, low score, standard deviation (how far the values are spread across the entire score range), and average time of completion.

To filter Survey statistics, click the **Section Filter** button [2] and choose the section that you would like to view. Note that you can only view the first 10 sections of your course. To access additional Survey results, generate a Student Analysis report.

View Student Analysis Report

View Student Analysis Report

Like [quiz statistics](#), you can also download Survey results by clicking the **Student Analysis** button.

Note: By default, the submitted time in the Student Analysis report is shown in UTC, not your set time zone.
