

How do I close a discussion for comments in a group as a student?

As a student in a [group](#), you can close a discussion for comments if it meets the following conditions:

- You are the creator of the discussion.
- There are no replies to the discussion.

After a discussion is closed, no replies are allowed.

Note: Once a discussion is closed for comments, only instructors can re-open it.

Open Discussions

In Group Navigation, click the **Discussions** link.

View Discussions

View Discussions

The group Discussions Index page is very similar to the course Discussions Index page. It displays a link to the discussion [1] and indicates whether the user is subscribed [2]. A green discussion icon indicates a subscription to the discussion.

Close for Comments

Close for Comments

Click the **Options** icon [1] and select the **Close for comments** link [2].

View Discussion

View Discussion

The discussion is listed on the Discussions Index page in the **Closed for Comments** section.
