

How do I use Chat as a student?

The Chat tool can be used for real-time conversation with course users. Any user in the course can participate in a chat conversation. All content in a course chat can be viewed by anyone in the course. Currently there is no load limit for a course chat, but larger numbers of course users may affect performance.

A user must be actively viewing the chat tool to appear in the chat list. You can open Chat in a new browser window while viewing other areas in Canvas.

Note:

- If you cannot view the Chat tool, Chat has not been enabled for your institution.
- You cannot delete chat messages.
- Safari 13.1 contains an update that may cause issues with chat alerts. You can avoid errors with files and images by [disabling cross-site tracking prevention](#) in Safari when using Canvas.

If this option is turned on, you will receive alerts if Chat is open in Canvas but your browser window is minimized or you are viewing another browser tab. Alerts will not send if you leave Chat to view another area in Canvas.

Message history each course is included in the chat. Chat history can be accessed indefinitely by loading more results and scrolling through previous course chats.
