

How do I view my quiz results as a student in New Quizzes?

Once you have [taken a quiz](#), you can view your quiz results for any quiz created in New Quizzes. You can also view feedback left by your instructor for specific answers.

Notes:

- If your quiz results are different from the images in this lesson, your instructor has restricted view of the results page. Instructors can select to hide points awarded, points possible, quiz items, correct and incorrect indicators, and feedback.
- If the quiz you are accessing displays differently, your instructor may have used the Classic Quizzes tool to create the quiz. Functionality may differ between these quiz types. For help with quiz results, please see [How do I view quiz results as a student?](#)
- If you attempt to access New Quizzes after the deadline, you will find a locked assignment page instead.
