

How do I view the history of a page in a group?

In your student groups, you can view the page history and see the date, time, and author of any changes made to the page. Page editors can also restore the page content to a previous version of the page.

Note: If your instructor allows students to edit course pages, students will be able to view the page history but will not be able to restore a prior version of the page.

Open Pages

Open Pages

In Group Navigation, click the **Pages** link.

View Pages

View Pages

Pages is designed to open to the front page for a group, if there is a front page selected. Click the **View All Pages** button to select a page from the Pages Index.

Open Page

[Open Page](#)

Click the page you wish to view.

View Page History

View Page History

Click the **Options** icon [1] and select the **View Page History** link [2].

View Past Revisions

View Past Revisions

View the revision history [1]. To return to the current page revision, click the **Close** icon [2].

Open Prior Page Revision

Open Prior Page Revision

To open a prior version of your page, click the date [1] you want to access and then click the **Restore this revision** link [2].

View Prior Version

View Prior Version

View the content from the latest revision. Canvas will remind you that this version of your page is the most recent revision [1]. If you want to replace your current page with different content, click a different date and page revision.

Click the **Close** icon [2] to return to the current page.
