Session Highlights & Media

This page provides access to media created and shared by the Center for Excellence in Teaching and Learning. These resources allow faculty to revisit CETL sessions, explore topics on demand, and view highlights from CETL activities and initiatives.

Video Resources

Many CETL sessions are recorded and published for on-demand viewing. These recordings include workshops, training sessions, and instructional content designed to support teaching practice and effective use of instructional technology.

Kaltura Channel

Visit the CETL **Kaltura Channel** to view recordings of these past workshops, webinars, and major events. This is a great resource for catching up or revisiting helpful content.

Featured Playlists

To make content easier to explore, recordings are organized into curated playlists:

CETL Recorded Sessions

Canvas Foundations Workshops

Recordings from foundational Canvas training sessions that cover core tools and best practices for course setup and management.

Teaching Tips

Short, focused videos highlighting practical strategies for teaching, learning, and course design.

Some videos may also be embedded within relevant Knowledge Base support pages for additional context.

Event Highlights & Images

CETL also shares photos, highlights, and updates from faculty-focused events and initiatives. These posts showcase faculty engagement, featured sessions, and key moments from CETL programming. Follow CETL on **Facebook** to view photos, highlights, and recaps from CETL events and activities.

Looking for Current Opportunities?

This page focuses on CETL-created media. For information about upcoming workshops, live sessions, and professional development opportunities, visit the **Faculty Development & Support** page or consult the CETL **event calendar** to view upcoming sessions and register for events. The calendar is updated regularly with new opportunities for professional development.
