Am I Eligible?

Every fellowship and scholarship has different criteria for eligibility, determined by the organization providing the award. Some are available to undergraduates, some to graduate students, and some to both. Also, be sure to check any citizenship requirements that the sponsoring organization has listed.

The best way to find out your eligibility is to Schedule an Appointment, and we can help you determine which awards you're eligible for and which ones fit best with your future goals.

Applicants for national scholarships acknowledge and agree that their A-State student conduct and academic conduct records may be checked as a condition for endorsement by the university as an award candidate, and that their conduct record may keep them from being endorsed.
