1.00 Introduction

This Request for Proposal (RFP) aims to establish a contract with multiple vendors to provide parts and services for Aviation, as further described herein.

To simplify the University's evaluation process, we have developed a standardized format that all proposals must follow. Failure to adhere to this format or to omit any of the information that is required will result in your firm's proposal being disqualified.

The contract will be awarded to the vendor, firm, contractor, offeror, or proposer ("vendor") who best satisfies the University's needs at the optimum cost and service performance. Cost will not be the sole criterion for determining the contract award. Vendors shall state the purchase price of each line item in the Proposal Packet. The University shall issue a firm, fixed-price contract for the services resulting from this RFP.

Henderson State University is one of multiple components of the Arkansas State University System. If another Henderson State University campus wishes to use the services of the selected provider and the provider agrees, they may do so as outlined in this RFP. The data, specifications, and administrative requirements outlined herein are intended to serve as a general guideline for each proposal. Each firm is expected to submit a fully detailed proposal that clearly describes the advantages and benefits the University would realize by accepting it.

INTERGOVERNMENTAL/COOPERATIVE USE OF PROPOSAL AND CONTRACT: In accordance with Arkansas Code §19-11-249, this proposal and the resulting contract are available to any college or university in Arkansas that wishes to utilize the services of the selected proposer. If the proposer agrees, they may agree as provided in this RFP.

7.00 Rejection of Proposals

the bid opening is conducted entirely via video conference, individuals will not be permitted to attend in person.

9.00 Contract Governance and Indemnification

The contract will incorporate the RFP's contents and any negotiated terms and conditions. Vendors should note the following regarding the University's contracting authority and amend their documents accordingly. Failure to conform to these standards will result in rejection of the proposal.

This contract shall be governed by and construed in accordance with the laws of the state of Arkansas. Henderson State University is an agency of the state of Arkansas, and the state and its agencies are protected from suit by sovereign immunity. Nothing in this contract is intended to, nor shall it waive, this sovereign immunity. Any provision of this contract in conflict with the laws of the state of Arkansas is null and void.

The Bidder shall indemnify and hold harmless the University, its officers, and its employees from all claims, suits, actions, damages, and costs of every nature and description arising out of or resulting from the contract or the provision of services thereunder.

The University will cooperate with the Bidder in the defense of any action or claim brought against the Bidder seeking damages or relief for any loss, expense, damage, liability, claim, or demand, either at law or in equity, for actual or alleged injuries to persons or property arising from any negligent actor omission by the University or its employees or agents in performance of this contract. The University will also cooperate in good faith with the Bidder should the Bidder present any claims of the aforementioned nature to the Arkansas State Claims Commission and will make a reasonable effort to expedite any hearing or other action before the Commission. However, the University reserves the right to assert, in good faith, any claims and defenses available to it in any such proceedings before the Commission or any other appropriate forum.

Additionally:

1. The State of Arkansas may not contract with another party to:
 1. Indemnify and defend that party for any liability and damages. However, the University may agree to hold the other party harmless from any loss or claim resulting directly from and attributable to the University's use or possession of equipment or software and reimburse the party for the loss caused solely by the University's use or possession.
 2. Upon default, to pay all sums that become due under the contract.
 3. Pay damages, legal expenses, or other costs and expenses of any party.
2. A party wishing to contract with Henderson State University must:
 1. Remove any language from its contract that grants remedies other than:
 - The right to possession.
 - The right to accrued payment.

-
2. Include in its contract language specifying that the laws of the State of Arkansas govern the contract.
 3. Acknowledge in writing that contracts with the University become effective when awarded.

10.00 Cost for Proposal Preparation

The University will not reimburse any proposer's costs incurred in the preparation and submission of proposals.

11.00 Further Information

Proposers are cautioned that the University is not obligated to request or accept clarifications after the opening date that are essential for a complete and thorough evaluation of the proposal. However, if the University requests additional information, whether written or oral, the bidder must provide it. Refusal to honor such requests may result in the proposal being rejected. The University may award a contract based on initial submissions without any further discussion of such proposals. Accordingly, each proposal should be submitted in the most favorable and complete terms possible.

If the University so chooses, it shall have the right to enter into discussions or negotiations with the qualifying vendor(s) to define the contractual details further. All such discussions shall be conducted at the sole discretion of the University and may take place at any lawful time of the University's choosing. The University shall determine the items to be discussed or negotiated solely.

Suppose discussions or negotiations fail to result in a contract. In that case, the negotiation process may be repeated until a successful vendor is identified and an award is made, or until the University decides not to proceed with an award.

The University may elect to request the best and final offers. Any best and final offer request made by the University will be conducted with the responsible vendors in accordance with A.C.A. § 19-61-506.

It shall be a breach of ethical standards for a person to be retained, or to retain a person, to solicit or secure a state contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except for the retention of bona fide employees or bona fide established commercial selling agencies maintained by the contractor for the purpose of securing business.

12.00 Proprietary Information

Proposals and documents submitted in response to this RFP become the property of the University and shall be open to public inspection following the proposal opening, except for proprietary information exempt from disclosure by law. Proprietary information submitted in response to this RFP must be separately packaged, sealed, and clearly labeled "PROPRIETARY". Financial data, trade secrets, test data, and similar proprietary information will, to the extent permitted by law, remain confidential, provided such material is clearly so marked by the proposer before submission.

"Proprietary information or information which, if disclosed, would give advantage to competitors or bidders ("Proprietary Information") submitted in response to this RFP will be processed in accordance with applicable State of Arkansas procurement procedures. Documents related to the RFP become the property of the State and shall be open to public

inspection after the proposal opening. It is the respondent's responsibility to identify all proprietary information. **The bidder should submit one complete electronic copy of the proposal from which any Proprietary Information has been removed.**

The redacted copy should retain the same pagination as the original, indicate the space where information was redacted, and be submitted on a CD or flash drive, preferably in PDF format. Except for the redacted information, the redacted copy must be identical to the original hard copy. The respondent is responsible for ensuring the redacted copy on the flash drive is protected against restoration of redacted data. The redacted copy will be open to public inspection under the Freedom of Information Act (FOIA) without further notice to the respondent. If a redacted copy is not received, the entire proposal will be open to public inspection. If the State of Arkansas deems redacted information to be subject to the FOIA, the bidder will be contacted before sending out the information.”

An authorized officer of the bidder must execute all proposals, which must be held firm for acceptance for a minimum period of 150 days after the opening date.

13.00 Examination of Records

The Bidder agrees that the University or its duly authorized representatives shall at any time during the term of this contract have access to and the right to audit and examine any pertinent records of the Bidder related to this contract. The Bidder shall retain such records for a period of no less than five (5) years from the date the records are made, unless the University authorizes earlier disposition. The Bidder agrees to refund to the University any underpayments or overcharges disclosed by auditor to take other acceptable corrective action.

14.00 Permits and Licenses The Bidder will obtain and maintain at its expense, and in its name, all necessary licenses and permits required to perform the services described herein.

15.00 Performance Standards

- A. State law requires that specific contracts for services include Performance Standards for measuring the overall quality of services provided. Performance Standards identify expected deliverables, performance measures, or outcomes, and define the acceptable standards the Bidder must meet to avoid assessment of damages.
- B. The University and Bidder will negotiate Performance Standards before contract award, before the commencement of services, or at times throughout the contract duration.
- C. The University shall have the right to modify, add, or delete Performance Standards throughout the term of the contract, should the University determine it is in its best interest to do so. Any changes or additions to performance standards will be made in good faith, in accordance with accepted industry standards, and may include input from bidders to establish reasonably achievable standards.
- D. All changes made to the Performance Standards shall become a binding part of the contract.
- E. Performance Standards shall continue throughout the term of the contract.
- F. Failure to meet the minimum Performance Standards as specified may result in the assessment of damages, as defined and agreed upon in the Performance Standards.
- G. In the event a Performance Standard is not met, the Bidder will have the opportunity to defend or respond to the insufficiency. The University may waive damages if it determines there were extenuating factors beyond the control of the Bidder that hindered the performance of services or if it is in the best interest of the State to do so. In these instances, the University shall have

final determination of the performance acceptability.

- H. Should any compensation be owed to the University as a result of the assessment of damages, Bidder shall follow the agency's direction regarding the required compensation process.

New line 3b has been added to this form. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).
