Mission and Vision

Mission Statement

The College of Education and Behavioral Science prepares professionals who improve lives and communities. Through excellence in teaching, research, and service, we promote lifelong learning, healthy development, and effective partnerships that strengthen education and well-being across our region and beyond.

Vision Statement

To serve as a catalyst for educational excellence, discovery, and service that promote mental and physical well-being, maximize human potential, advance social and behavioral health, and strengthen the communities we serve and beyond.
