ABOUT MARKETPLACE

Treasurer's Office at Arkansas State has teamed with Marketplace and TouchNet Information Systems to provide a secure and convenient way to extend campus business operations to the online world. This platform provides a safe environment by creating uStores that allow buyers and sellers to connect electronically, making it easy for students, parents, alumni, and the community to do business with Arkansas State. It is cost-effective and allows departments to easily operate online storefronts to sell products or accept online payments.

Marketplace has a variety of purposes. Since its implementation in 2016, Marketplace has been used by numerous Arkansas State campus departments, from Residence Life to the Equine Center. A number of student organizations have taken advantage of this resource as well. Stores can be used to allow students, parents, faculty/staff, alumni and community members to register for events, pay organization membership dues, shop fundraisers or make donations at the time most convenient for them.

Having Trouble Logging into AstateSecure?

If you are having trouble getting onto the university's Wi-Fi on your apple devices, your device may be trying to push other passwords to sign in even if you're using the correct A-State credentials. Therefore, you must un-sync your iCloud passwords to be able to sign into AstateSecure successfully.

First, make sure you aren't connected to any other A-State Wi-Fi options. If you are, make sure to forget the network for those options. Once this has been done, follow the steps below to un-sync your passwords.

Step 1: Open the settings app on your apple device.

Step 2: Tap your name at the top of the screen that shows your apple account, iCloud+, and more.

Step 3: Tap the iCloud option.

Step 4: Tap the Passwords section on the screen.

Step 5: Tap the toggle for "Sync this iPhone" to turn it off.

Step 6: Now go to the Wi-Fi settings on your apple device that you're using, and sign into AstateSecure using your A-State credentials.

Step 7: Once the device is connected, you may follow steps 1 - 5 to turn password sync back on.
