

Enable Third-Party Cookies and Cross-Site Tracking for your Browser

Some university services, embedded content, authentication tools, and third-party integrations may require third-party cookies or cross-site tracking permissions. Follow the instructions below for your browser.

Important: Enabling third-party cookies may reduce privacy protection. Whenever possible, use the site-specific exception options provided by your browser.

Google Chrome

Enable all cookies in Chrome on PC or Mac

1. In Chrome, click the **Chrome menu icon** (three dots in the upper right)
2. Click **Settings**
3. In the *Privacy and security* section, click **Third-party cookies**
4. Make sure that *Block third-party cookies* and *Block all cookies* are not selected

Enable cookies for a single site in Chrome on PC or Mac

1. In Chrome, click the **Chrome menu icon** (three dots in the upper right)
2. Click **Settings**
3. In the *Privacy and security* section, click **Third-party cookies**
4. Under *Sites allowed to use third-party cookies*, click the **Add** button
5. Enter the web address. The web address for Canvas at A-State is <https://arkansasstateuniversity.instructure.com/>
6. Click the **Add** button

For additional instructions and troubleshooting, see: [Google's guide to managing third-party cookies in Chrome](#)

Enable all cookies in Chrome on iPhone or iPad

1. Open the **iOS Settings** (gear icon)
2. Scroll to the bottom and select **Apps**
3. Scroll and select **Chrome**, or swipe down to use the search field
4. Enable the **Allow Cross-Website Tracking** slider

Safari

It isn't possible to approve cookies for only certain sites in Safari. You will need to enable all cookies, instead.

Enable all cookies for MacOS

1. In Safari, open the *Safari drop-down menu* and click **Preferences**
2. Click **Privacy** in the top panel
3. Ensure that *Prevent cross-site tracking* and *Block all cookies* are both unchecked

For additional instructions and troubleshooting, see: [Apple's guide to enabling cookies in Safari on macOS](#)

Enable all cookies for iPhone or iPad

1. Open the **iOS Settings** (gear icon)
2. Scroll to the bottom and select **Apps**
3. Scroll and select **Safari**, or swipe down to use the search field
4. Tap **Advanced**, then turn off Block All Cookies.

For additional instructions and troubleshooting, see: [Apple's guide to managing cookies on iPhone and iPad](#)

Firefox

In Firefox, it isn't possible to enable all cookies. Instead, you will need to enable them specifically for each site individually.

Enable cookies for a specific site for Firefox on PC or Mac

1. Visit the website
2. At the left of the address bar, click the shield icon

3. At the top right of the panel, toggle off the *Enhanced Tracking Protection* switch. This will disable Enhanced Tracking Protection for the site and will automatically reload the page

Repeat this process for any other pages where you need to allow cookies.

For additional instructions and troubleshooting, see: [Mozilla's guide to cookies and Enhanced Tracking Protection in Firefox](#)

Microsoft Edge

Allow all cookies

By allowing cookies, websites will be able to save and retrieve data on your browser, which can enhance your browsing experience by remembering your preferences and login information.

1. Open Edge browser, select **Settings and more** `SettingsandMore` in the upper right corner of your browser window.
2. Select **Settings** `SettingsIcon` > **Privacy, search, and services** `LockIcon` .
3. Select **Cookies** and enable the toggle **Allow sites to save and read cookie data (recommended)** to allow all cookies.

Allow cookies from a specific site

By allowing cookies, websites will be able to save and retrieve data on your browser, which can enhance your browsing experience by remembering your preferences and login information.

1. Open Edge browser, select **Settings and more** `SettingsandMore` in the upper right corner of your browser window.
2. Select **Settings** `SettingsIcon` > **Privacy, search, and services** `LockIcon` .
3. Select **Cookies** and go to **Allowed to save cookies**.
4. Select **Add site** to allow cookies on a per-site basis by entering the site's URL.
 - The web address for Canvas at A-State is <https://arkansasstateuniversity.instructure.com/>

For additional instructions and troubleshooting, see: [Microsoft's guide to managing cookies in Microsoft Edge](#)

These instructions were verified for Chrome, Edge, Safari, and Firefox as of July 2026. Menu names may vary slightly in newer versions.
