

Phishing Attempts

If you think you may have been compromised, or notice any suspicious activity occurring, you should take action as soon as possible to prevent any exposure to data or other university systems, and take the following steps:

- If your department has a designated IT Support person, contact them to check your device.
- If you do not have a designated IT Support person, or do not know who that person is, please contact **ITS Security** at **870-972-3770** so the appropriate individuals can be contacted. You can also forward the email to **security@astate.edu**.

For further assistance, contact the ITS Help Desk at 870-972-3933 or stop by IT Support Services (itsupportservices@astate.edu). It is located on the bottom floor of the Dean B. Ellis Library, Room 149.

Revision #17
