

Procurement Goals

Department Goals

- To procure all materials and services which meet the quality, quantity and delivery requirements of University departments.
- To obtain the highest value for each dollar spent.
- To foster and maintain good working relationships with campus departments through an understanding of their purposes and objectives.
- To promote the principles of open competitive bidding and impartiality.
To maintain a high level of professional ethics and integrity.
- To provide potential suppliers with equal consideration of their products and services.
To foster a high standard of public relations within the University, with vendors and the general public.
- To acquaint faculty and staff with the practices and procedures employed by the Procurement Office.
- To provide information and consultation to faculty and staff relative to products, sources and procurement options available to them.

Strategic Plan

Procurement Services' strategic plan is to search for the best quality products and services and at the best price while meeting departmental needs.
