

Viewing Completed Workflow Documents

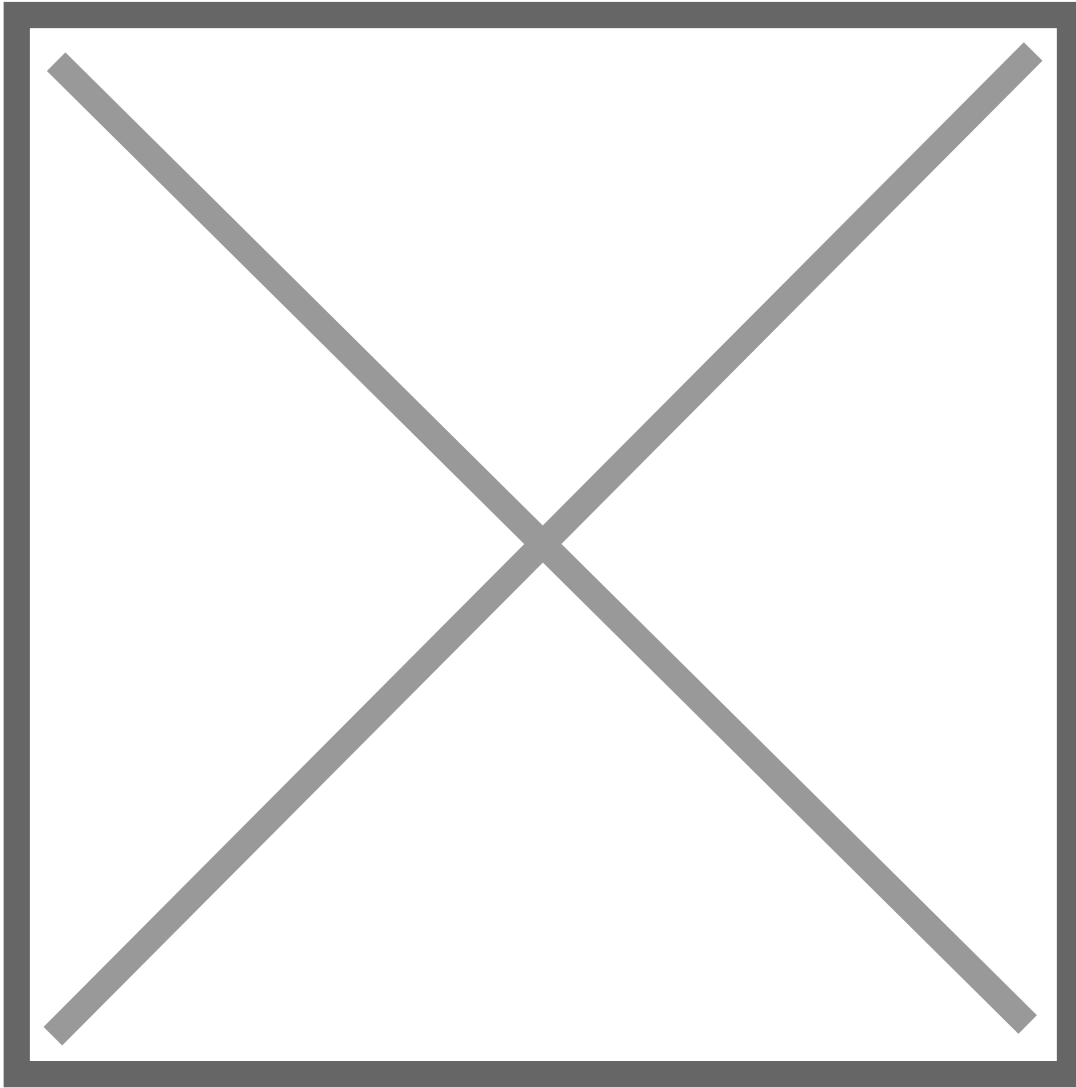

Learn how to navigate the Streamline platform to find specific sessions and download completed documentation.

Updates to this process are expected.

1. Navigate to <https://us.streamline.intellistack.ai/landing-page>

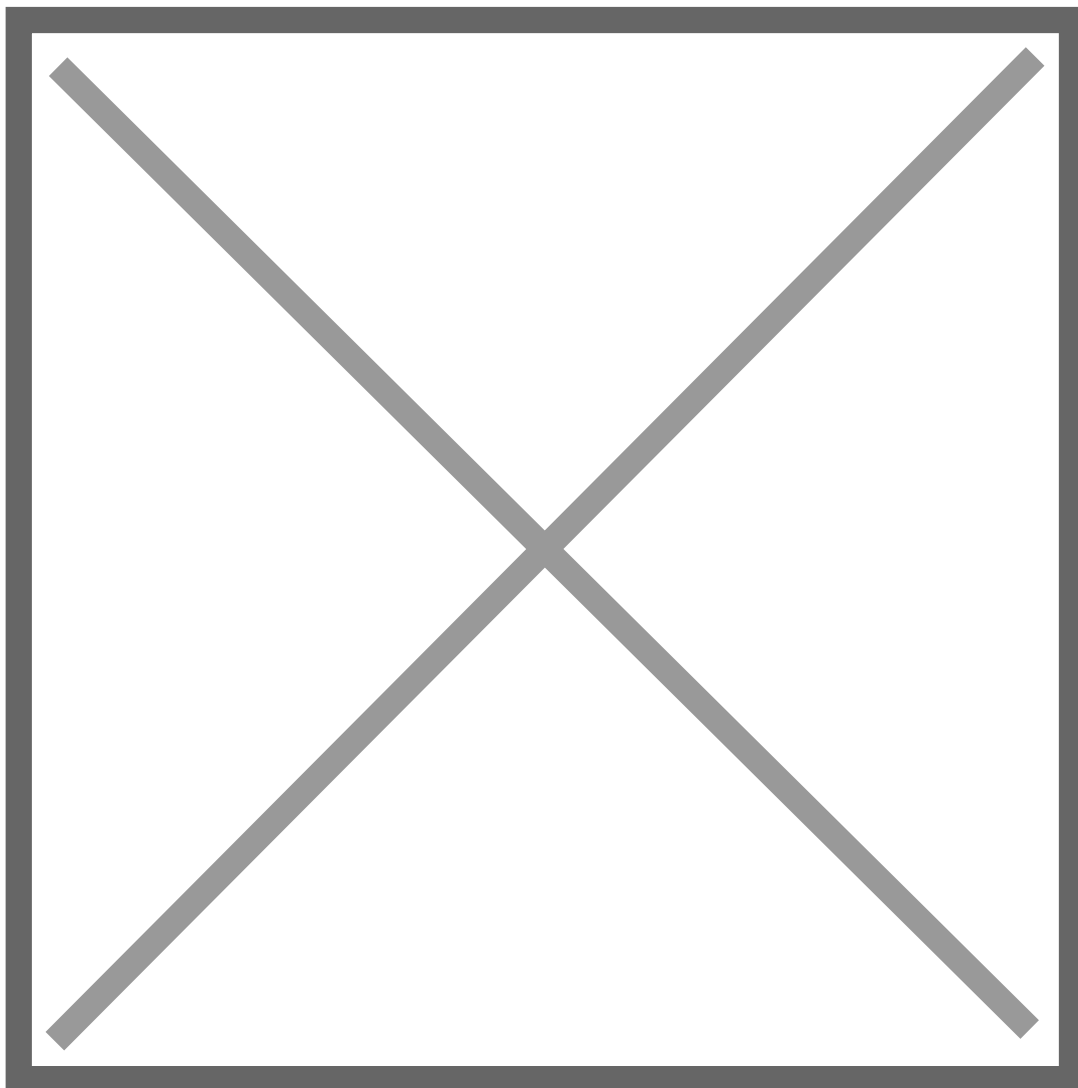

2. Click "Repository"

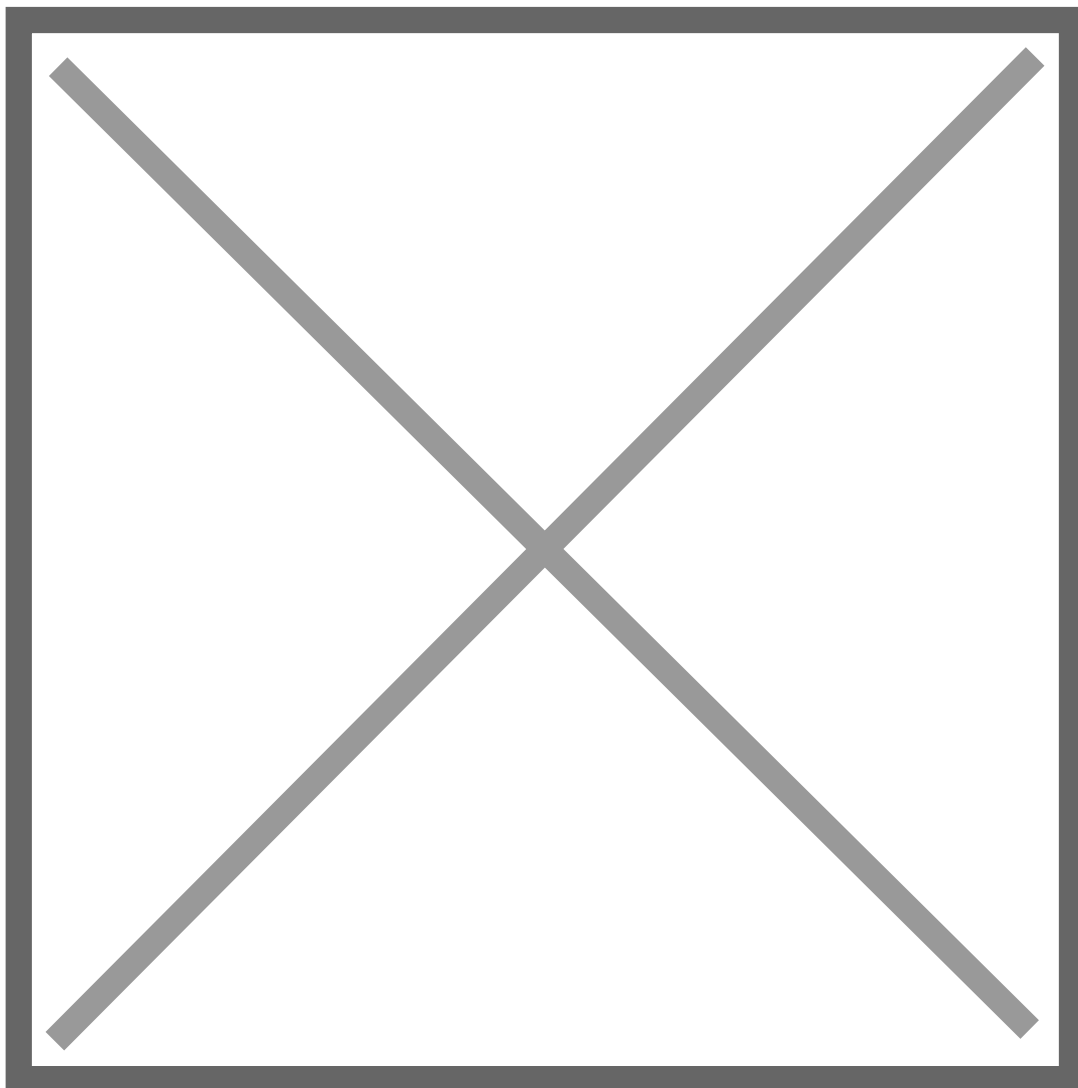

3. Find the document you are looking for. You may have to scroll to the right. There is a search bar to help filter as well. It can be hard to find one specifically if there have been a lot of submissions, so you may have to open it and check.

As of 10/1, we sent this to product support to clean up the UI and make it a little easier.

4. When you find the correct document, you can view the details, the timeline, and the completed document. Click the "Download Document" button.

Revision #1
