

N

Nursing and Health Professions, College of

The college facilities include the Nursing and Health Professions Building, the Donald W. Reynolds Center for Health Sciences, and portions of Eugene W. Smith Hall (See "buildings" for details)

NYIT

New York Institute of Technology's College of Osteopathic Medicine at Arkansas State University is the medical school that opened in a renovated Wilson Hall in the fall of 2016. On second reference, it may be called NYITCOM at A-State. However, if reference is to the main campus at Old Westbury, Long Island, second reference would be simply NYIT. The COM is a second instructional location of the main NYIT campus. Do not use branch campus, per guidelines from COCA (the national accrediting agency). Never refer to COM as belonging to A-State; the COM is co-located with A-State facilities, but it is NYIT's academic unit. The NYIT editorial style manual also is available [here](#).
